

ethiopia kossa geshe

lavender | blueberry | nectarine | cotton candy

we're happy to bring you coffee from kossa geshe for a third straight year. this is a fully traceable, fully transparent, single farm, natural ethiopian, something that is still a bit of a rare commodity in the coffee world. kossa geshe is a two brother operation, owned and run by abdulwahid and anwar sheriff. the farm is just a few kilometers from the local school, and employs 42 fulltime employees, including 24 women. the farm has been with the sheriffs for only 8 years, and we expect great things as cultivation and processing are continually refined.

this coffee is grown at 1950 meters and consists of limu buna 54 and 74165 varieties (both heirloom). it is naturally processed, sun-dried on raised beds and tarps on hard ground over 18 days, with selective sorting during the first 3-4 days.

ROASTING AND SOURCING

coffee is a farmer's life

at one line coffee, we specialize in sourcing and roasting seasonal, single farm coffees in an ethical and sustainable way. we believe in giving credit to a farmer, and work hard to match their passion when we roast. visit us at onelinecoffee.com
