

mexico la victoria mwp decaf

tootsie roll | clove | orange | brown sugar

this is a fully traceable, single farm decaf from the chiapas region of mexico. martiniano ancieto moreno alvarado has been cultivating coffee on la victoria for 11 years, and has worked hard to expand and improve his farm. coffee is grown on 110 hectares of his land, making this quite a large farm. coffee provides martiniano's main source of income, and he takes pride in the fact that the farm has the ability to support several other local families.

martiniano has pursued many avenues of improvement, including coffee rust resistant varieties, and improved fertilization and crop management techniques.

this coffee is grown at 1450 meters. it consists of multiple varieties, including bourbon, caturra, copa de ora, costa rica, oro azteca, and timor hybrid. the coffee is fully washed with wet fermentation and patio drying, and is decaffeinated using the mountain water process.

ROASTING AND SOURCING

coffee should not come in a can
