Hafi's Story

Our second year purchasing coffee from the Hafi Washing Station. This lot comes from ~695 nearby smallholders. Located in Northern Burundi in the Muyinga province these producers had to walk nearly 20km to the closest station to process their coffee before the Hafi station was constructed. The name Hafi was chosen since in Kurundi it means 'close.' Hafi is the focus of our next smallholder fund project, aimed at building a corn milling facility to provide the community with corn flour. We're thrilled to cultivate deeper relationships in Burundi with JNP Coffees.
